Customer Problem Statement Template:

In the recommendation system the problem is trying to forecast the opinion the users will have on the dissimilar substance and be able to recommend the finest items to each user. Various factors make people change jobs every year in search of the perfect and suitable jobs that are both skillfully and financially aligned. With the rapid progressions in the current world it has become a necessity rather than a choice to change jobs.

These progressions can compel people to change to new positions. This might be on the grounds that new advancements arise or creation is moved to another country. No matter what the driving force, individuals are confronted with the test of moving between responsibilities to track down new work. Fruitful advances regularly happen when laborers influence their current abilities in the new occupation. Here, we propose an original technique to quantify the comparability between occupations utilizing their hidden abilities

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Fresher	Get placed in a MNC	I got rejected though I performed my best	My GPA was low	Worried
PS-2	An Employee	Get a salary hike	I can't	Of my bond with the company	Disturbed and worried
